March is Women's History Month - Join us for Women & 1970s Counterculture: VCW'S Annual Event in Partnership With the Vermont Historical Society

So much of what now makes modern Vermont culture unique has roots in the counterculture movement of the 1970s: food coops, community health centers, farm-to-table food systems, community gardens, alternative schools, farmer's markets, alternative energy, holistic health care, birth centers, and artist cooperatives. This movement called into question, and even dismissed, the values and expectations of society at that time, and ushered in a wave of feminism that has endured. What drew women to this movement? How did it impact their lives? What about Vermont shaped their experience as a woman in the counterculture? Hear the stories and reflections of women who were there and add your own thoughts and questions. Join us on [Wednesday, March 15, 7:00 p.m. at Goddard College's Haybarn Theatre in Plainfield.](#)
